

N2S-SOL-0551

PIPELINE PIGGING CHEMICAL

SOLVENT

PRODUCT INFORMATION

N2S-SOL-0551 is a high-strength, oil-soluble aromatic solvent blend formulated for use in pipeline cleaning and heavy-hydrocarbon remediation. This composition provides rapid penetration and dissolution of hard paraffin, asphaltene, and resinous deposits. With its high solvency parameter and fast evaporation rate, N2S-SOL-0551 excels in applications requiring quick action and minimal residual film, such as pre-flush operations or spot cleanouts of heavy organic fouling. The product effectively breaks down solid hydrocarbons, disperses sludge, and suspends loosened material for efficient transport during pigging or fluid displacement runs.

PHYSICAL PROPERTIES

Appearance: Liquid
Specific Gravity: 0.870
Flash Point: Closed Cup: 66 °F

STORAGE & HANDLING

Keep container closed. Follow safe warehousing practices. Handle as an industrial chemical, wearing protective equipment and observing the precautions as described in the Safety Data Sheet (SDS).

KEY BENEFITS

- Disperse and dissolve problematic organic deposits, allowing efficient removal

APPLICATION

N2S-SOL-0551 should be applied to the pipeline by batch treatment during pig runs. The required volume for effective treatment is dependent on the quantity of the contaminants suspended in the pipeline. Batch cleaning should be monthly or quarterly depending on solids accumulation.

LOCATIONS

113 Liberty Ave., Lafayette, LA 70508 (Corporate)
1080 Forum Dr., Broussard, LA 70518
205 E. Wallisville Rd., Highlands, TX 77562
1815 Mercer-Grove City Rd., Mercer, PA 16137
